STUDY MBBS BANGLADESH

At Education Abroad, our initiative is to bring medical aspirants from India to get quality medical education abroad at an affordable cost. Looking at the number of required doctors around the world, India is one of the countries with a high demand for qualified doctors. Though India has lakhs and lakhs of medical aspirants, getting into a medical college in India is a highly competitive and costly affair. However, being able to pursue the medical program abroad at an affordable tuition fee, many Indian students are able to accomplish their dreams of becoming successful doctors.

To help such students to pursue their dreams at a low tuition fee, MBBS in Bangladesh comes into the picture to help the medical aspirants get admissions in NMC/MCI Approved top medical colleges in Bangladesh.

Our Core Values

Commitment | Transparency | Compassion | Courage

MEDICAL EDUCATION IN BANGLADESH

Bangladesh is one of the best choices for Indian students with many benefits and opportunities, yet providing a homely environment for their learning.

Universities are regulated by the University Grants Commission at the tertiary level of the Govt. of People's Republic of Bangladesh. The National University regulates colleges that offer tertiary education. All medical colleges are linked to universities. Universities in Bangladesh are autonomous bodies administered by statutory bodies, such as the Syndicate, Senate and Academic Council, which are ruled by their laws.

The field of medical study is considered as one of the most prestigious fields of higher studies in Bangladesh. Graduate, Post-Graduate and Doctorate levels of medical

study opportunities are in Bangladesh, which are extremely popular among international students, especially Indians. The colleges are under the jurisdiction of the Ministry of Health, and are affiliated with a university in the respective region. Until the early 1990s, all the medical colleges were established by the government. Since then, several private medical colleges have been set up.

Bangladesh is the first preferred option of medical education for Indian students. Currently there are more than 10,000 Indian students studying MBBS in Bangladesh.

ACCOMODATIONS	UNIVERSITY HOSTELS, RENTALS, ETC
RECOGNITIONS	NMC/MCI, ECFMG, FAIMER, WDOMS, BMDC, IMED ETC

BENEFITS OF MBBS IN BANGLADESH

Studying MBBS in top medical colleges of Bangladesh brings you to the doors of immense success and opportunities in India and even abroad in the long run.

Affordable Costs of Study:

The greatest advantage of studying MBBS in Bangladesh is affordability. The tuition fees are cheaper here. No donation is required at any step of the admission. Hostel charges are also comparatively lower.

NMC, WDOMS Approved Universities:

Most of the government medical universities are approved by NMC, WDOMS, ECFMG and many other international bodies making the degree valid across the globe.

English Medium Of Teaching:

The medical colleges teach in English. As English is popular among Indian students to the extent that some even consider it the second language. So Indian Students don't face difficulties in learning and communicating.

Seat Reservations For International Students:

All the medical colleges- government and private provide reservations to the International students upto 50%. Therefore, provided the student fulfills the eligibility and has excellent academic records, one can easily study MBBS in Bangladesh.

Accommodations & Lodging:

Almost all government and private medical colleges in Bangladesh provide hostel facilities to international students. The hostels are equipped with all the essential requirements for the students.

Food:

For Indians, Bangladeshi food is not a matter of contemplation. The country's food habits are very similar to that of India.

Clinical Exposure:

Most of the government medical colleges of Bangladesh have attached hospitals. As a result, the students get to practices on the grounds during their clinical rotation. Some government colleges have nearly 1000 bedded hospitals. This enriches them with real practical knowledge.

Similarities With Indian Medical Curriculum

As a major benefit for the Indian students, who wish to come back in order to practice or pursue further education, Bangladesh is the best choice. The overall medical curriculum at the university is very similar to that of India. The colleges at times, even, follow Indian author books for references.

TOP MEDICAL UNIVERSITIES OF BANGLADESH

The higher education system of Bangladesh classifies 7 main universities region wise to monitor and ensure the quality of education in the colleges under its governance.

DHAKA UNIVERSITY

Established in 1921, the University of Dhaka is the oldest functioning university in Bangladesh. Today, it is the largest public research university in Bangladesh, with a student body of 37,018 and a faculty of 1,992. It was identified by AsiaWeek as one of the top 100 universities in Asia.

CHITTAGONG UNIVERSITY

Established in 1966, the University of Chittagong is a public research university with multidisciplinary faculties situated in the north of Chittagong city of Bangladesh. This university has the largest campus among Bangladeshi universities. There are about 25+ colleges affiliated with it.

SYLHET MEDICAL UNIVERSITY

Many medical colleges have been established in the country for commercial reasons. According to the Prime Minister's directive, Sylhet Medical University is the 4th Medical University of the directive in the Sylhet region of Bangladesh to govern these colleges. The university at present affiliates 7+ medical colleges in the country.

RAJSHAHI UNIVERSITY

Rajshahi Medical University was established with the objective of rapid implementation of education and medical activities and all government and private medical institutions of Rajshahi, Rangpur and Khulna divisions. At present the university supervises 19+ government medical institutions and 50+ private institutions.

BANGLADESH UNIVERSITY OF PROFESSIONALS

Bangladesh University of Professionals is the 31st public university of Bangladesh, located in Mirpur Cantonment, Dhaka. It is the first public university of Bangladesh to run by Bangladesh Armed Forces. At present there are 6 medical colleges under it.

UNIVERSITY OF KHULNA

Khulna University is a public university in Bangladesh. The academic programs of Khulna University started on 31 August 1991 with 80 students in four disciplines. As of November 2019, the university has 29 disciplines under six schools and two institutes. It is the only public university in Bangladesh where student politics is not allowed.

CAREER BENEFITS

Studying MBBS in Bangladesh promises and assures its pursuers of unlimited opportunities. Some of them are as below:

- ✔ **Practice Anywhere In The World:** The students once graduated from Bangladesh can practice anywhere in the world. They can either choose to work in Bangladesh, return to India for the same or choose any other country to establish their future. However, in order to practice anywhere in the world (except Bangladesh), the students have to qualify for the licensing exams of that particular country, for example FMGE for India, USMLE for USA, etc.
- ✔ **Pursue Higher Education/Specialisation In The Country Of Your Choice:** Just like practicing in any country, you can also choose to pursue your higher education in any country of your choice. Pursuing MD in USA or Germany is an often choice among the students who have completed their MBBS in Bangladesh. One of the major advantages to Indian students for doing so is that they do not need to appear on the FMGE/NExT Exam on their return to India.
- ✔ **Specialise in Hospital Management and Administration:** One of the fast growing fields of modern medicine, a specialist degree of Hospital Management and administration is a coming of age opportunity for the young doctors. This fast developing sector offers a good career scope for the students from the medical background.
- ✔ **Discover New Age Career Opportunities:** The students can also discover several other new age opportunities after completing their MBBS in Bangladesh. Throughout the course, the students get to explore the ongoing trends and advances in the discipline of medicine and are enabled to formulate their own way of success. Fields like that of sports medicine, medical tourism, pharmaceuticals, industrial medicine, medical investments, insurance, etc are some of the many unconventional options the medical students can get to explore.

ELIGIBILITY CRITERIA

The students are advised to follow the guidelines established by NMC (MCI) in order to pursue their medical degree abroad. As per the prevailing regulations set forth by the 7th session meeting of former MCI (now replaced by NMC) on 29th March 2017, the following criteria must be met in order to pursue MBBS in Abroad (Bangladesh).
